Appln. No. 10/765, 212 Amdt. dated January 7, 2005 Reply to Office Action of October 28, 2004

REMARKS

The Official Action of October 28, 2004, and the prior art cited and relied upon therein have been carefully studied. The claims in the application are now claims 1-8, and these claims define patentable subject matter warranting their allowance. Favorable reconsideration and such allowance are respectfully urged.

Claims 1-8 remain in the application for consideration.

In response to the Examiner's objection to the drawings, Applicant has amended the specification to describe elements "64", "66b", "UL", "LL" and "30e" shown in the drawings but not previously identified or described in the specification. Applicant has further identified elements "30f" and "60'" in the drawings as elements described in the specification, but neither identified therein or on the drawings. Applicant has also deleted element 45 from the drawings as it not described in the specification. Applicant respectfully submits that this objection has now been overcome.

In response to the Examiner's objection to the abstract and specification, and rejection of claims 1-8 under 35 U.S.C. §112, second paragraph, Applicant has amended the abstract, specification and claims to eliminate each of the problems identified by the Examiner and others identified by

Applicant. Applicant respectfully submits that the Examiner's objections and rejection of claims under 35 U.S.C. §112, second paragraph have now been overcome.

Applicant thanks the Examiner for his indication that claims 1-8 would be allowable subject to being amended to overcome his 35 U.S.C. §112 rejection. Applicant respectfully submits that having overcome the 35 U.S.C. §112 rejection as noted above, that claims 1-8 are now allowable, and that this application is now in condition for allowance.

The prior art documents made of record and not relied upon have been noted along with the implication that such documents are deemed by the PTO to be insufficiently pertinent to warrant their applications against any of applicant's claims.

Favorable reconsideration and allowance are earnestly solicited.

Respectfully submitted,
